25 YEAR RE-REVIEW

Deputies' Meeting, 10 April 1962

ACTION MEMORANDUM #7

TO: Col Grogan .

At the meeting this morning you reported on the proposed press release [redacted] prepared by the Department of Defense.. This proposed release contains information from OSS files which are in the custody of CIA, and the Department of Defense, therefore, requests our concurrence in its release. The Director and Deputy Director both expressed the view that we should not become involved in this matter and should not give our concurrence to the use of information from files in our custody unless, after study, there should appear to be some very strong reason for doing so.
